Nutrition Education

The goal of nutrition education is to teach, encourage and support healthy eating by students. Promoting student health and nutrition enhances readiness for learning and increases student achievement.

Nutrition education will be provided within the health education program in accordance with State Board of Education curriculum regulations and the academic standards for Health, Safety and Physical Education, and Family and Consumer Sciences.

Nutrition education shall provide students with the knowledge and skills needed to lead healthy lives.

Nutrition education lessons and activities shall be age-appropriate.

Nutrition education shall be integrated into other subjects to complement but not replace academic standards based on nutrition education.

Lifelong lifestyle balance shall be reinforced by linking nutrition education and physical activity.

The staff responsible for providing nutrition education shall be properly trained and prepared and shall participate in appropriate professional development.

Consistent nutrition messages shall be disseminated throughout the district, schools, classrooms, cafeterias, homes, community and media.

Physical Activity

District schools shall strive to provide opportunities for age-appropriate and developmentally appropriate physical activity during the school day for all students.

District schools shall contribute to the effort to provide information to parents and students about opportunities to accumulate at least sixty (60) minutes of age-appropriate physical activity on all or most days of the week. This will include physical activity outside the school environment, such as outdoor play at home, sports, etc.

Extended periods of student inactivity, two (2) hours or more, shall be discouraged.

Age-appropriate physical activity opportunities, such as recess; during lunch; clubs; intramurals; and interscholastic athletics, shall be provided to meet the needs and interests of all students, in addition to planned physical education.

A physical and social environment that encourages safe and enjoyable activity for all students shall be maintained.

Physical activity breaks shall be provided for elementary students during classroom hours.

District schools shall partner with parents/guardians and community members to institute programs that support physical activity.

Physical activity shall not be used as a form of punishment.

Students and the community shall have access to physical activity facilities outside school hours.

Physical Education

Quality physical education instruction that promotes lifelong physical activity and provides instruction in the skills and knowledge necessary for lifelong participation shall be provided.

Physical education classes shall be the means through which all students learn, practice and are assessed on developmentally appropriate skills and knowledge necessary for lifelong, health-enhancing physical activity.

A sequential physical education program consistent with State Board of Education curriculum regulations and Health, Safety and Physical Education academic standards shall be developed and implemented.

Students shall be moderately to vigorously active as much time as possible during a physical education class. Documented medical conditions and disabilities shall be accommodated during class.

Safe and adequate equipment, facilities and resources shall be provided for physical education courses.

Physical education shall be taught by certified health and physical education teachers.

Physical activity shall not be used as a form of punishment.

Other School Based Activities

District schools shall provide adequate space for eating and serving school meals.

Students shall be provided a clean and safe meal environment.

Drinking water shall be available at all meal periods and throughout the school day.

Qualified nutrition professionals shall administer the school meals program.

Professional development shall be provided for district nutrition staff.

Access to the food service operation shall be limited to authorized staff.

Students and parents/guardians may be involved in menu selections through various means.

Food shall not be used in the schools as a reward or punishment.

The district shall provide appropriate training to all staff on the components of the Student Wellness Policy.

Goals of the Student Wellness Policy shall be considered in planning all school based activities.

Administrators, teachers, food service personnel, students, parents/guardians, and community members shall be encouraged to serve as positive role models through district programs, communications and outreach efforts.

The district shall support the efforts of parents/guardians to provide a healthy diet and daily physical activity for children by communicating relevant information through various methods.

Nutrition Guidelines

All foods available in district schools during the school day shall be offered to students with consideration for promoting student health and reducing childhood obesity.

Foods provided through the National School Lunch or School Breakfast Programs shall comply with federal nutrition standards under the School Meals Initiative.

Competitive foods are defined as foods offered at school other than through the National School Lunch or School Breakfast Programs and include a la carte foods, snacks and beverages; vending food, snacks and beverages; school store food, snacks and beverages; fundraisers; classroom parties; holiday celebrations; and food from home.

Most competitive foods available to students in district schools shall comply with the Nutritional Standards for Competitive Foods in Pennsylvania Schools. The nutritional standards shall be implemented as a one (1) year plan.

Safe Routes To School

The district shall cooperate with the school district's safety committee, local municipalities, public safety agency, police departments, and community organizations to develop and maintain safe routes to school.
